

## Customized Education

Our learning programs are specifically designed to meet the individual needs of students who need to be challenged academically or those who need extra help.

Our students develop effective learning strategies that enable them to build confidence and a strong educational foundation.

## Deborah Knutson, Director

*Since earning my B.S. in Physics and Master in Teaching, I have worked with students of all ages and abilities who have unique learning needs. Traditional teaching methods may not be effective, so I identify how my students learn and develop different approaches to help them learn more efficiently. Coping with visual and auditory central processing disorders gives me the empathy and motivation needed to work with students with learning issues. I help them turn the "I can't, it's too hard" to "I can, I just need to do something different."*

*My mission is to provide an alternative for parents and students while maintaining academic excellence in a caring, safe, and fun learning environment.*

## Meeting the Needs of Individuals

Choosing the right educational system can be difficult. This responsibility becomes a greater challenge when specific educational needs must be addressed. The team at Education NW Resources has designed specialized programs to address these specific needs. If we do not have the resources to meet those needs, we will do our best to help you find them.

## We Care

A strong education has become a great social concern. Since 2003, Education NW Resources has committed to give excellent, affordable, and personalized service.

Tailored curriculum, flexibility in scheduling, and competitive rates allow our students to learn and flourish in a caring educational environment.
